Questions:

- #1: Do you utilize epoxy coated smooth dowels in your concrete pavements?
- #2 Have you excavated smooth dowels from concrete pavements recently?
- #2.a) If yes, what condition were they in generally?
- #3. Have you experienced rusting problems with epoxy coated smooth dowels?
- #3.a) If yes, about how long were they in place and was the rusting cause for pavement joint failure?
- #4. Do you use smooth dowels that are not epoxy coated?
- #4.a) If yes, what coatings do you use and what percentage of your smooth dowels are coated with something other than epoxy?
- #5. Additional comments:
- #6. Would you like a copy of the compiled results of this survey?
